INSTRUCTIONS

Thank you for downloading the instructions for our portrait session. Before arriving at the studio, there are a few things to have in mind in order to have a smoothly - run session and to get the best results for your portrait.

Within the allocated time, we will be trying different styles and set ups and it's much more enjoyable and efficient to work without stress. Please arrive promptly for our appointment.

HAIRSTYLE

We will start with a natural look and we will build on as we go along; do not use hair products before the shooting. Women can wear the hair up or down and we will try other styles as we see fit during the session. If you are planning to have a hair cut, please have it arranged at least 5 days before our session.

MAKE UP

Natural look is what helps to make a good portrait. We will use a neutral look as our starting point and we will make changes as we go along. Avoid intense and dark eye shadows and strong mascara, do not use eye-liners nor too bright lipstick. There is a space for you to complete your make - up here so don't hesitate to bring whatever you find suitable.

FACIAL HAIR

If you have facial hair you don't necessarily need to shave or trim before you arrive. You can do so during the session, which will give you extra options in the final selection of pictures.

CLOTHES

We will try different styles from casual to formal. Please bring at least 5 different tops. T-shirts, V-necks, round necks, shirts and thick (rather than thin) straps are recommended. Also please bring in jackets, cardigans, jumpers and hoodies as layers can give interesting textures and dimensions. Please do not wear white, fluorescent or very bright colours; avoid patterns, although they sometimes fit nicely.

RATES

£180

(£150 for students / return clients)
4 retouched headshots
Colour and Black & White
1.5 - 2 hour session

£220

(£190 for students / return clients)
